This measure amends Section 34 of Article X of the Oklahoma Constitution. This section created the Oklahoma Industrial Finance Authority. The Authority sells general obligation bonds to help finance industry in Oklahoma. The bonds are backed by the full faith and credit of the state. The Authority loans money to industrial projects. The loans are secured by mortgages. This measure increases the amount of bonds the Authority could sell from \$10,000,000.00 to \$90,000,000.00. This measure increases the Authority's lending limit from 25% to 33 1/3% of the value of the project for second mortgage loans. This measure would allow the Authority to loan up to 66 2/3% of the value of the project for first mortgage loans. It allows loan funds to be used to buy federal loans. It limits sales of the additional bonds. Those bonds can be sold only in amounts that do not exceed \$10,000,000.00.

This measure would amend Section 10 of Article 6 of the State Constitution. This section deals with reprieves, commutations, pardons and paroles. It would take away the power of the Pardon and Parole Board and the Governor to grant paroles to convicts sentenced to death or to life in prison without parole. This means a person sentenced to life without parole or to death could not get out on parole. It would still give the Pardon and Parole Board the power to recommend parole for other convicts. The Governor could still grant pardons, commutations and reprieves in all cases. He could also grant parole to other convicts.

This measure requires a balanced budget. This measure amends Section 23 of Article X of the Oklahoma Constitution. It changes the method which determines how much tax money may be spent each year. It limits the amount that may be spent to ninety-five percent (95%) of estimated income. It further limits any increase in the amount to be spent to twelve percent (12%) annual growth, after inflation. The measure provides a method to change the amounts that may be spent based on changes in law or changes in business conditions. Extra money would be placed in a reserve fund. The measure limits the ways that reserve funds can be spent. It directs that the limit on income to be spent in the next fiscal year be changed to conform to this measure.
